

**2015  
Promotional  
Pricing**

## Biopolymer Characterisation GPC/SEC Solutions

Scientex with partner PSS is pleased to provide 2015 promotional pricing on columns for academic research.

To take advantage of this great offer all year round please call or email us today.

- Columns

PSS high performance columns are the result of comprehensive research focusing on the development of more efficient and robust gel materials and an improved packing technology. Stationary phase gels for chromatography are able to separate synthetic and natural macromolecules by their hydrodynamic volume.

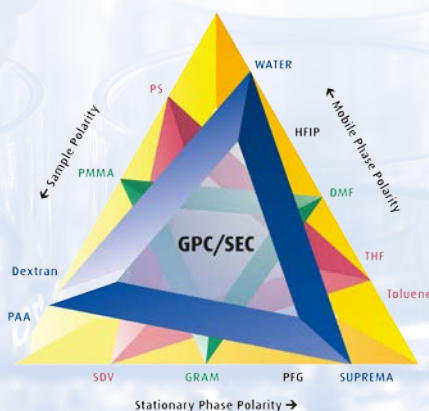

- PSS Columns Selection App

Choose the right column or combination for your application has never been easier with the PSS Columns Selection App available for download to your PC, Tablet or Smartphone.

Scan the above QR code or visit the website at:

<http://www.psscolumselector.com/>

- Other PSS products range include:

- Polymeric Reference Standards
- BioSECcurity SEC System
- GPC/SEC Software
